## Dermatology Treatment and Services

# A Comprehensive Approach to Skin Care and Treatment

At Atlantic General, we take a comprehensive approach to the diagnosis, treatment and management of all types of skin conditions.

This includes combining advanced diagnostic and therapeutic services with the latest technology to provide customized care and treatment.

Our board-certified medical staff is ready to meet with you to discuss whatever concerns you may have about the condition of your skin. We provide a comfortable and confidential environment for each patient.

And if surgeries or other procedures are required, you can rely on our quality, caring specialists to perform them using the most advanced, non-invasive treatment techniques.

## We specialize in treating various skin and nail conditions, such as:

- Age spots
- Cellulitis
- Cysts
- Eczema
- Folliculitis (*ingrown hairs*)
- Fungal infections
- Moles
- Psoriasis
- Rashes and rosacea
- Scarring
- Shingles
- Skin cancer
- Sun-damaged skin
- Warts

## Non-Invasive Skin Cancer Screening

Among the diagnostic services we offer are dermatoscopy examinations. The examination of skin lesions using skin surface microscopy technology is one of the newest advancements in the accurate diagnosis of melanoma.

This technology provides considerable improvements in the accurate detection of skin cancers as well as non-melanoma conditions.

Improved diagnostic accuracy means reducing the need for surgical excisions of benign lesions, while also providing greater peace of mind for our patients.

## A Dedicated Team

Our dedicated staff is led by **Curtis D. Asbury, M.D.**, a board-certified specialist in dermatology. A graduate of the University of Maryland School of Medicine, Dr. Asbury served as chief resident

in dermatology at Stony Brook University School of Medicine in New York. He also completed an internship in internal medicine at Greater Baltimore Medical Center. Dr. Asbury is active as a writer and lecturer on a wide variety of skin treatment topics.

Dr. Asbury is supported by a highly experienced clinical staff – all of whom are dedicated to helping you look and feel your best while affirming your physical and emotional well-being.

We also assure close collaboration and full access to the wide scope of medical services offered by Atlantic General Hospital and Atlantic General Health System.

## Help is Right Here

If you think you or someone you love may benefit from skin treatment services, take the next step. Talk with your doctor to discuss your situation, or contact us at **302-564-0001** to learn more or to schedule an appointment.
