About Choptank Transport

Choptank Transport is a leading 3PL provider that specializes in analyzing the logistics needs of shippers to determine the most suitable and efficient mode of transportation for the goods – such as refrigerated trucks, flatbed trucks, dry vans, rail or air services.

Choptank has over 13,000 certified carriers in its national database providing 24/7/365 customer service, offering shippers and carriers alike a significant business advantage.

The Choptank Transport Difference

Our people are our most important asset. Their drive and determination to make a difference, to provide

3PLs offer ...

- Nationwide access to thousands of carriers
- A qualified carrier selection process
- Negotiating power
- The latest technology for efficient planning and real time visibility of shipments and paperwork
- Knowledge of current transportation laws and regulations
- Accountability
- Reassurance
- A single point of contact for all things logistics!

exceptional service, and to deliver real results, make us a better competitor. Choptank staff members are educated in the field of logistics and are trained in efficient planning and problem solving skills. They are excellent communicators. They listen, assess and respond. Over half of Choptank's workforce are Certified Transportation Brokers who are continually trained, educated and promoted from within, so everyone benefits.

Industries Served

Choptank serves manufacturers, distributors and retail markets throughout the United States. We ship truckload freight – both temperature-controlled and dry van – including food and beverage products, plastics, nursery freight, building supplies and much more. We also provide specialized shipping services for smaller orders by offering refrigerated LTL options. All services are provided with optimized coordination and delivery by utilizing Choptank's advanced, cloud-based TMS technology.

Truckload

Choptank Transport's truckload division is its flagship service. Our reliable, dock-to-dock delivery is well known in the industry. We contract with over 13,000 pre-approved carriers who have passed our demanding criteria to become a certified Choptank carrier. In addition, Choptank is able to provide an unparalleled level of

protection so that your cargo is always kept safe. As one of the first logistics companies to be granted TIA's \$250K level of protection, we also offer extra insurance for your high-value items.

Less than Truckload (LTL)

Temperature Controlled

The increased demand for quality, refrigerated and frozen LTL was the deciding factor in launching Choptank's reefer LTL division. Our on-time delivery and consistent service have become a perfect solution for shippers facing challenging schedules with specialized cargo. Choptank's experienced LTL team will help you every step of the way.

Supplemental Services

Choptank Transport can customize your transportation to be more economical, faster and simpler with alternative shipping modes, such as intermodal or storage options for later shipping.
