

**KAESER
COMPRESSORS**

Built for a lifetime.™

“The buck stops here.”

— Harry S. Truman

With our fully integrated Com-paK Plus™ blower packages, Kaeser takes full responsibility.

Delivered ready to operate. Lower installation costs. Complete scope of supply. Sensors and controls that protect the entire system. These are just some of the reasons to choose Kaeser Com-paK Plus™ packages. Others include superior quality construction, very low noise and a small footprint.

Our standard package design will reduce the time you spend specifying and purchasing individual system components. Easy-access maintenance, low power consumption and unmatched equipment reliability reduce your operating costs, too. And only Kaeser makes the blower packages suitable for remote operation.

Add in an industry-leading warranty plus our proven reputation for superior customer service ... and it's no wonder Kaeser sets the pace in delivering the best value for the price!

Contact us today to learn more about the powerful benefits of versatile Com-paK Plus™ blower packages from Kaeser.
