

Leaks are never a good thing.

When it comes to urological health, “just a little annoyance” could be a symptom of a more serious health problem. That’s why there’s **The Continence & Pelvic Health Center** at Shore Regional Health: one convenient location for consultations ... advanced treatment options ... and peace of mind.

We treat Mid-Shore patients, both male and female, with bladder and pelvic support conditions such as urinary incontinence, bladder dysfunction, recurrent bladder infections, and more. Most health plans, including Medicare, cover diagnosis and treatments.

R. Duane Cespedes,
M.D., Board-
Certified Urologist

Anna M. Stanton,
R.N., B.S.N., Urology
Nurse Specialist
