

Always the perfect fit.™

The First Choice for Multi-Story Heating and Cooling

- ◆ Riser fan coils ... Room fan coils ... Water-source heat pumps
- ◆ Solutions for new construction ... renovations ... replacements
- ◆ Thousands of installations worldwide:
 - Hotels and hospitality
 - Apartments and condominiums
 - Dormitories (military, education, etc.)
 - Senior living facilities
 - Multi-story commercial buildings

Vertical Stack, Valve Control Fan Coil Units

... Versatile, practical, smart.

- ◆ Ingenious removable chassis design
- ◆ Quick, effortless chassis installation and removal
- ◆ Easy access to all internal components
- ◆ The best-value solution for renovation projects
- ◆ Minimized tenant disruption
- ◆ Conventional fixed coil units available

Riser Fan Coils

*... The preferred choice.
The proven solution.*

- ◆ Innovative valveless design
- ◆ Highly effective humidity and temperature control
- ◆ Energy efficient
- ◆ Low cost of ownership
- ◆ Also available as 50/50 4-pipe systems

Water-Source Heat Pumps

... Designed for water-source and geothermal applications.

- ◆ Enhanced design flexibility
- ◆ Superior comfort
- ◆ Efficient, clean, quiet operation
- ◆ LEED® and energy-savings “green” design
- ◆ Small footprint ... flexible configurations
- ◆ Low installed cost ... low maintenance cost

Riser Fan Coil 50/50 4-Pipe System

... An integral component that provides true savings.

- ◆ A true valveless 4-Pipe unit
- ◆ Substantial system energy savings
- ◆ Exceptional temperature and humidity control
- ◆ Maximizes operational system efficiencies
- ◆ Low cost of ownership
- ◆ System flexibility and diversity
