

► *Success you can see ...*

Drive more yield improvements in your cone line operations.

See the new YieldScan™ System at IPPE '16, Booth B-5843. Or learn more at gainco.com/yieldscan.

We've harnessed the latest vision-based technology to develop YieldScan™ – the high-speed vision and scoring system that helps improve cone line meat yields and worker productivity.

Come see YieldScan™ in action at IPPE '16 in Atlanta:

- View a live system demonstration
- Talk with us about ROI for your specific plant

Not attending IPPE? No problem! Contact our processing consultants at 800-467-2828. We'll show you *success you can measure*.
